Tony:

The EPA continues to watch the progress and the activities that are ongoing to insure that those activities are consistent with what EPA activities would be had we continued actions at the site. I do not want to interfere with the work you are doing with the TCEQ but want to understand the actions that are being taken and the general direction that the project is moving. This is why I would like to see the APAR. I would appreciate if I could have a look at it otherwise I will make the request through the TCEQ.

Thanks

Gary Moore

Hi Gary – Sorry for the late reply, but I've been out of the office (still am) and am catching up on e-mail.

As you know, the APAR was submitted to the TCEQ and is still under review. As soon as we receive TCEQ comments and discuss the report with them, we'll forward a complete copy to you. To date we've had good interaction with the TCEQ so I suspect we might be hearing from them soon.

I hope that clarifies the situation. Regards,

Tony Saturni

Subject: CES: Affected Property Assessment Report (APAR)

Tony:

I am keeping track of what is happening on the CES report and am aware that you guys have submitted your APAR to the TCEQ for review. Although I will not be providing input on this report, I would like to review it to see what has been done and what additional activities are planned for both on and off-site activities.

I would appreciate it if you could send me an electronic version of the report.

Thanks
